

GO AND EXPLORE

Whether its just for fun, a reward , a reason to get up from your desks or for a little time out !.

Use these scavenger hunts to take a look at what's around you, take a little time to explore the everyday. When you look a little closer at things they suddenly become a little more interesting, look at things from a different angle, perspective is an amazing thing!

You could use a tablet/ iPad, a camera , a camera phone. If you don't have access to a camera just record your findings with a tick or even a little drawing.

Most importantly just get out there and have a good old look around you, notice the similarities and the differences, the patterns and the textures and the details that you've never noticed before !
